

## Pre-Announcement: Botanical Adventure in the Tian Shan Mountains!

Join us for an extraordinary botanical journey through the breathtaking landscapes of the Tian Shan Mountains in Kyrgyzstan! From **May 27 to June 5**, we invite you to explore a stunning range of habitats, from dry steppes to snowmelt regions at altitudes reaching 4000 meters.

### What to Expect:

- **Diverse Plant Life:** Discover unique and rare flora of Central Asia, by experienced guides.
- **Easy Access:** Travel to fascinating locations aboard a mini-bus, ensuring maximum exploration with minimal effort. If you have doubts about your hiking capacity, do not hesitate to contact us for clarification.
- **Traditional Kyrgyz Cuisine:** Savor authentic dishes prepared with local flavors, a cultural experience in itself.
- **Knowledgeable Guides:** In addition to the botanical guide, enjoy insights from an English-speaking local guide, offering expertise on Kyrgyzstan and the region's rich history.

### Highlights:

- Botanical exploration across diverse ecosystems.
- Stunning mountain vistas and natural beauty.
- A chance to connect with nature and like-minded plant enthusiasts.

This is an incredible opportunity for plant lovers, adventurers, and conservation enthusiasts alike. **Mark your calendar for May 27 to June 5, 2024**, and stay tuned for the full announcement with booking details!

To express your interest completely without obligation and stay updated, please contact us at [info@alpine-plants.com](mailto:info@alpine-plants.com)

NOTE: We depend on a minimum number of participants to proceed with the trip. Prices and complete itinerary will be announced later

**Let the adventure begin!**
